

model EU-9003R

Receiver for Wireless Transmitter

FEATURES & BENEFITS

OPTIONS

For more information, visit www.hawesco.com or call (888) 640-4297.

SPECIFICATIONS

Model 9003R is a reliable din-rail or panel-mountable receiver that is designed to receive a wireless signal from a Honeywell Limitless® digital input. This receiver then communicates the digital input status (i.e. switch open or closed) to a PLC (programmable logic controller) or any host controller capable of NPN/PNP-type inputs. Accommodating up to 14 Limitless® digital inputs, this receiver is for applications requiring multiple wireless inputs. Configuration and output LED's: Green, yellow and red. RF signal LED: Red. Supply voltage: 10 Vdc to 28 Vdc. Supply current: 500 mA max. Communication agency approval FCC: 15.247 Operating temperature: -4° C to 185° F (-20° C to 85° C)

APPLICATIONS

Specifically, this receiver is used in conjunction with wireless transmitters mounted to most Haws showers or eyewash's for wireless communication during emergency situations.

For more information about any Haws product please contact Modern Plant. Our team of experts are on call to answer all your questions and provide you with any advice.
