

FEATURES & BENEFITS

CONSTRUCTION

Stainless steel constructed tank makes for a solid portable unit with added resistance against corrosion and breakage.

ADDED PROTECTION

Green polyethylene plastic dust covers that release with water pressure keep the unit protected from debris up until the last second before use further optimizing operation. The 6' hose extends the portable units reach and is pressure rated at 250 psi (17.2 bar) making for a better piece of emergency equipment.

VALVES

Eyewash valve comes equipped with stainless steel ball and stem for added protection against corrosion and breakage. Unit also comes with a chrome-plated brass squeeze valve supplied with a 6.25 gpm (23.7 L) flow control.

SAFETY

Air pressure gauge, pressure relief valve, and tire-type air fill valve decrease the possibility of mishaps and make for a safer piece of emergency equipment.

FLOW CONTROLS

Green ABS plastic Soft-Flo anti-surge heads supplied with portable unit distributes water at .25 gpm (.9 L) per head when pressure is between 30 and 90 psi (2.1 and 6.2 bar) to provide a thorough irrigation process.
